D&D Dice Factory

# 01 Company Profile

As a professional source factory deeply rooted in the board game accessory industry, Foxbone has dedicated over 20 years to the R&D, production and sales of board game dice and chips. Backed by superior product quality and highly competitive pricing, we have become the preferred partner for board game manufacturers and distributors worldwide.

We operate a modern production base covering over 5,000 square meters. From raw material procurement to finished product delivery, we maintain independent control over the entire industrial chain, enabling genuine factory-direct supply. By cutting out intermediate links, we create greater profit margins for our customers.

In terms of product range, our board game dice come in diverse materials including resin, acrylic, wood and metal, with sizes spanning from 5mm to 80mm. We offer customized numbering, color matching and logo engraving services to meet the personalized needs of various board game scenarios. Our chip series includes clay, plastic and metal chips, featuring fine texture and excellent wear resistance, which are perfectly suited for entertainment scenarios such as Texas Hold'em, mahjong and board games. All our products have obtained SGS environmental certification, boasting high color fastness and comfortable hand feel. Prior to delivery, each product undergoes rigorous weight calibration and quality inspection to ensure full compliance with high industry standards.

Equipped with more than 20 automated production lines, our factory has a professional R&D team and a dedicated mold workshop. We can swiftly respond to customers' custom requirements, efficiently fulfilling both small-batch trial orders and large-scale mass production, with the shortest delivery lead time of only 3 days. We have deeply explored both domestic and international board game markets, and our products are exported to more than 30 countries and regions including Europe, America and Southeast Asia, establishing long-term and stable cooperative partnerships with many well-known board game brands.

We provide customers with one-stop procurement solutions, supporting free sample provision, OEM production and cross-border customization services. Choosing Foxbone means choosing quality assurance, cost advantages and efficient services. We look forward to collaborating with global partners to create new brilliance in the board game industry.
